An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ralph Locher on January 19, 2005.

**In the specification:**

On page 25 line 23, "62" has been changed to --65--.

**In the claims:**

In claim 10 last line, "recording material" has been changed to --printing plate--.

The above amendment to claim 10 has been entered to correct a lack of proper antecedent for "the recording material" as the claim only previously recites a printing plate.

The following is an examiner's statement of reasons for allowance: The total recited combination including, in particular, a sensing device having a sensing finger pivoted into a groove of an exposure drum to sense an edge of a printing plate mounted thereon could not be found in, nor rendered obvious by, the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen R. Funk whose telephone number is (571) 272-2164.
